Dear Ms. Parsons Labs:

Idaho State Police does not maintain search warrants, applications for search warrants, cancellations, and authorization for search warrants electronically. Hard copies of those documents are stored in our case files, therefore a manual search of each case file must be conducted to determine whether documents responsive to your request exist. Each responsive document will certainly include at least some of the points you are requesting, but we have to manually identify those records before we could provide any of the other points you are requesting and which are not exempt from disclosure.

Sincerely,

Amy Jordan
